

Our long history and expertise make Maruyama Pumps the best in the world.

Maruyama Mfg. Co., Ltd.'s tradition is "sincerity" toward our customers.
 We considered the operability first so that our customers could use it.
 I want to continue contributing to the future of agriculture.
 Looking to the future of people and agriculture
 Another 120-year history will be engraved.

What makes our pumps Great

1. Forced valve mechanism created by Maruyama
2. NEO Ultiflow High Performance and Durability
3. Pressure regulating valve that is easy to handle and has excellent pressure regulating performance.
4. Low maintenance, easy maintenance.

1. Forced valve mechanism created by Maruyama
 Low flow resistance, smooth flow, and excellent water absorption efficiency.
 An eco-friendly pump with high water absorption efficiency and low power required.

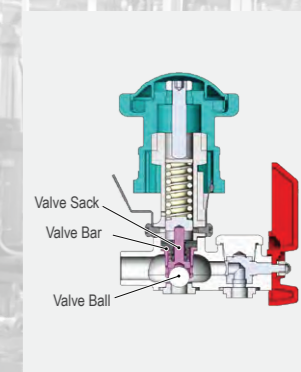

2. High durability performance

Pressure control valve sack, pressure control valve rod, and cylinder bolt are made of stainless steel. The inside of the cylinder is treated with MAC (ceramic spray coating) for excellent wear resistance. The piston packing and seal packing are made of fluororubber with excellent chemical resistance. Withstand water temperature up to 40 ° C.

3. Pressure control valve that is easy to handle and has excellent pressure control performance

Built-in bypass circuit Spillway can be easily switched Need to put the adjustment dial back The large, easy-to-grip pressure control dial is non-slip and light. The pressure regulating valve ball is also made of ceramic with excellent durability.

4. Simple structure with excellent maintainability

The cassetteized discharge valve can be replaced it's simple. On the cylinder head Equipped with drain. Easy to drain water Prevents freezing troubles

ピストンパッキンの交換が簡単.

5. Pal save chamber

Contains special pellets to prevent air from escaping and suppress the generation of pulsation, vibration, and noise. Stable discharge is possible even during long-term continuous operation.

Maruyama's dynamic jet is packed with 125 years of "sincerity"

Experience and technical capabilities cultivated since the establishment in 1895.
 Made by MARUYAMA supports safe & secure + comfortable pest control work.
