The MX series introduces a whole new level of quality brush cutters.

Whether you' re just starting out or in the market for a new quality machine.

The MX SERIES has all the essentials to get you started on those day to day jobs. The more experienced user will also find that these machines are more than enough to get those larger jobs done too.

A light machine to make light work of variety of jobs.

Operator fatigue is minimized due to the light construction of these machines, making it easier to use in longer periods of time.

The DIATOP Z4 Nylon Head

The MX SERIES only uses quality Japanese manufactured nylon heads by DIATOP.
